

Elmer Systems Single User

All you need to run your business!

Keep track of your customers and your projects

Do you know this situation? It's time-consuming to find old information - e.g. mail, offer, invoice or a letter. And how can this be easily reused to a new customer so you can save time. You lose old extra sale opportunities because informationless-, offer-, supply chain and invoicing system, which enhances all the sales processes for users, who wish to ease the tasks to create offers, invoices, send campaigns etc. In Elmer Systems all customer information will be collected. You can always see how much you earn on an opportunity. The unique technology of Elmer Systems gives you the opportunity to quickly find and reuse an old sales workflow including fax, letter, offer, invoice, E-mail etc. The system can be used stand alone or with ERP-systems like Navision/ Concorde, SAP etc.

Elmer Systems is a user friendly system where you can:

- store all customer and product information
- write offers/quotes in multiple currencies/languages
- make your invoices
- create letters, order products, shipment papers
- campaigns
- fax
- e-mails
- calendar

You gain a full view of:

- Your customers (who they are, how do they look and how important they are)
- All activities - deadline, type and priority
- Your products and services - cost and selling price, notes about discount, currencies etc.
- All opportunities - how much will you earn - what did you learn.
- Accounting, forecast, sales reports, expense reports, VAT, Mileage

Benefits - with Elmer Systems you gain these benefits:

- Full view of all customers
- Can make more offers in the same time
- Save time by easily create campaigns and follow-ups
- Make more opportunity follow-up in the same time
- Quickly find and reuse old information, opportunities etc.
- Minimize doing the same work twice
- Get more time with your family/spare time
- Better quality in your sales opportunities
- Better customer satisfaction
- Remembers all opportunities
- Handle much more customers
- Earn more money
- Easy to use
- More extra-modules

The unique benefit: As the most efficient system in the market, you can reuse an old sales opportunity including fax, letter, offer, mail etc. It takes only a couple of seconds to reuse it all to a new customer.
